ADDING GOLD TO YOUR PORTFOLIO

Gold has traditionally provided a safe haven for investors for thousands of years. Today, with historically high government spending, large budget deficits and a very real threat of inflation, investors would be wise to consider adding a position in Gold to their investment portfolios.

Gold remains a safe haven and a hedge against inflation, the falling dollar and other negative geopolitical events. Additionally, diversification among asset classes can be one of the most significant factors in creating an all-weather investment portfolio. Along with traditional investments such as stocks, bonds and cash

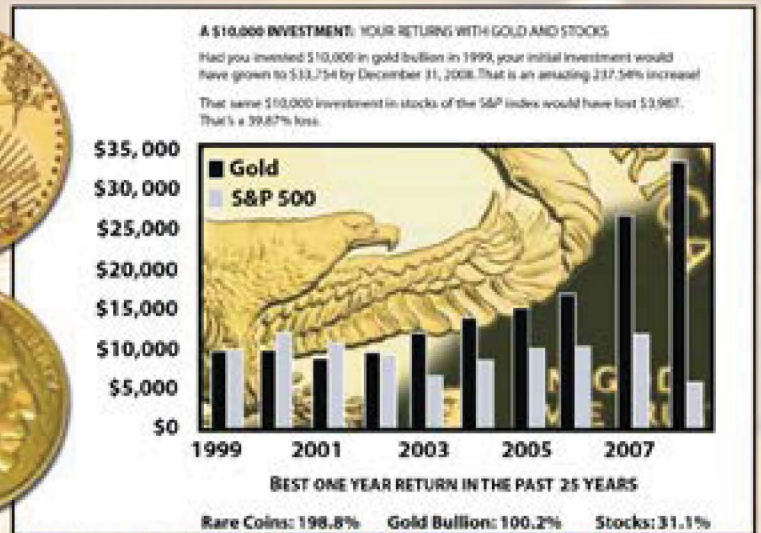

equivalents, adding alternative investments such as real assets, like Gold and other precious metals, can reduce the overall risk of your investment portfolio by lowering overall volatility, while potentially enhancing returns.

Holding Gold by including bullion and rare coins in your investment portfolio can be an easy, liquid and uncomplicated way of diversifying you into an asset class non-correlated with the more traditional stock and bond markets.

Gold, Silver and Platinum coins, minted in the U.S. may also be included in Individual Retirement Accounts (IRA). We can provide guidance on how this can be accomplished.

BEST PRICES ON BULLION

At Houston Coin & Bullion we offer you the lowest prices on new purchases of Gold bullion including U.S. minted American Gold Eagles and Buffalos, the price of which is based on the spot price of Gold on any given business day. In addition, we offer the best prices on other widely traded World Gold such as Swiss Helvetias, Canadian Maple Leafs, British Sovereigns and South African Krugerrands.

Call Houston Coin & Bullion for the lowest prices on Silver, Platinum and Palladium including American Silver Eagles, Silver Buffalos, Canadian Silver Maple Leafs, American Platinum Eagles, circulated Silver Morgan and Peace dollars, Palladium bars and bags of circulated 90% Silver U.S. coins, known as “Junk Bags.”

RARE COINS AND BULLION ARE NOT ONLY FOR AFFLUENT INDIVIDUALS

We have rare coins and bullion to fit almost any budget. Many individuals mistakenly believe that investing in bullion and the collecting of rare coins, in good condition and graded by a reputable service, is only for the rich and beyond their means. This is an unfortunate misconception. Rare coins, well positioned for future appreciation, come in all price levels – from the hundreds to the millions of dollars.

HOUSTON COIN & BULLION WILL BID ON YOUR NUMISMATIC COLLECTION OR INDIVIDUAL COINS AND BULLION

We bid on ALL U.S. coins and collections as well as Gold and Silver from other nations. HCB’s experienced professionals will offer you top dollar for your coins and bullion, with our goal being your complete satisfaction.

APPRAISALS AND GRADING OF COINS & COLLECTIONS

Not sure where to turn for an honest appraisal or firm bid on your coins and bullion? Don’t turn to a pawn shop or street corner coin shop; turn to the professionals at Houston Coin & Bullion!

- Do you have coins that have not been graded and are in a “raw” state?
- Not sure what they are worth?
- Not sure whether or not to have your coins submitted for grading?
- Do you need an appraisal for insurance purposes?

Call Houston Coin & Bullion for a free consultation and evaluation. We’ll let you know what your coins and bullion are worth and (if ungraded) whether they should be submitted to a recognized coin grading service.

Once your coins are appraised and valued, Houston Coin & Bullion stands ready to make a firm bid for your collection and will stand behind that bid. No hassles, no back-peddling - a firm, honest offer for your coins.

WORKING IN A WHOLESALE CAPACITY

Since Houston Coin & Bullion operates in the wholesale world, as both a buyer and a seller, we have our pulse on the rare coin and bullion markets on a daily basis and can offer you the best prices, whether you are buying or selling.

Doing business on the wholesale and retail side gives Houston Coin & Bullion unique insight into the value of your rare coins, which will always lead to a better buying or selling price for you.

DEPTH OF EXPERIENCE AND KNOWLEDGE OF RARE COIN MARKET

We analyze the market daily, go to all the major shows, participate and observe auctions and communicate with all of the largest dealers.

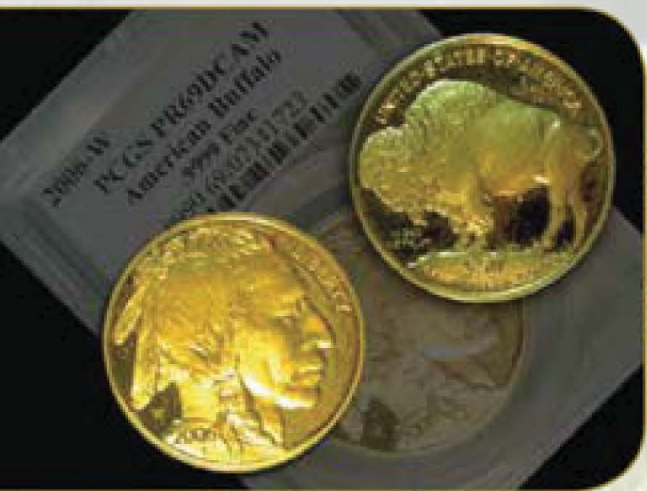

We have a depth of experience and a history with our clients, some of whom we have been doing business with for more than a decade. Houston Coin & Bullion has traded millions of dollars in rare coins, bullion and currency.

Thanks to aggressive pricing and knowledge of the markets and the key players, HCB has shown consistent ability to beat the competition by offering the lowest, most competitive prices.

Looking for a specific coin to add to a collection, complete a set or just getting started?

All of our rare coins are personally selected by our experienced in-house numismatist, with a decade of experience in the rare coin market. Houston Coin & Bullion does not simply sell coins that we buy off of lists from other dealers. We attend the major shows where we look through literally thousands of coins, on an individual basis, at each event, selecting only the coins we feel are best suited to appreciate in value.

AUCTIONS

HCB maintains relationships with the major auction houses.

We can facilitate the process of consignment, where we work with a major auction house to present and offer your coins at auction. We negotiate all buyer/seller premiums and buy-backs on your behalf. Choosing the right time and price for auctioning your coins is crucial to insuring that you get top-dollar. Don't let just anyone put your coins into auction; go with Houston Coin & Bullion and leverage our experience gained through having participated in hundreds of auctions, realizing millions of dollars.

CREDENTIALS

At Houston Coin & Bullion we are heavily credentialed and involved with all of the major numismatic coin industry associations.

We are certified PCGS (Professional Coin Grading Service) and NGC (Numismatic Guaranty Corporation) authorized dealers. Additionally, we are supporters of ICTA (the Industry Council of Tangible Assets) and members of CCE (Certified Coin Exchange) and CAC (the Certified Acceptance Corporation).
